Overview

COLORING THE WORLD

Movacolor
volumetric features

- Stepper motor 0.1 to 200 rpm
- In-line with unique dosing cylinder
- Easy and quick color change

Result:

- High accuracy
- Fast response

- Dosing cylinder and stepper motor
- Capacity 0.07-72 kg/h
- Manual adjusted speed and time

- Dosing cylinder and stepper motor
- Capacity 0.07-72 kg/h
- Manual adjusted speed and time
- Auto synchronization with extruder speed
- Integrated hopper loader control

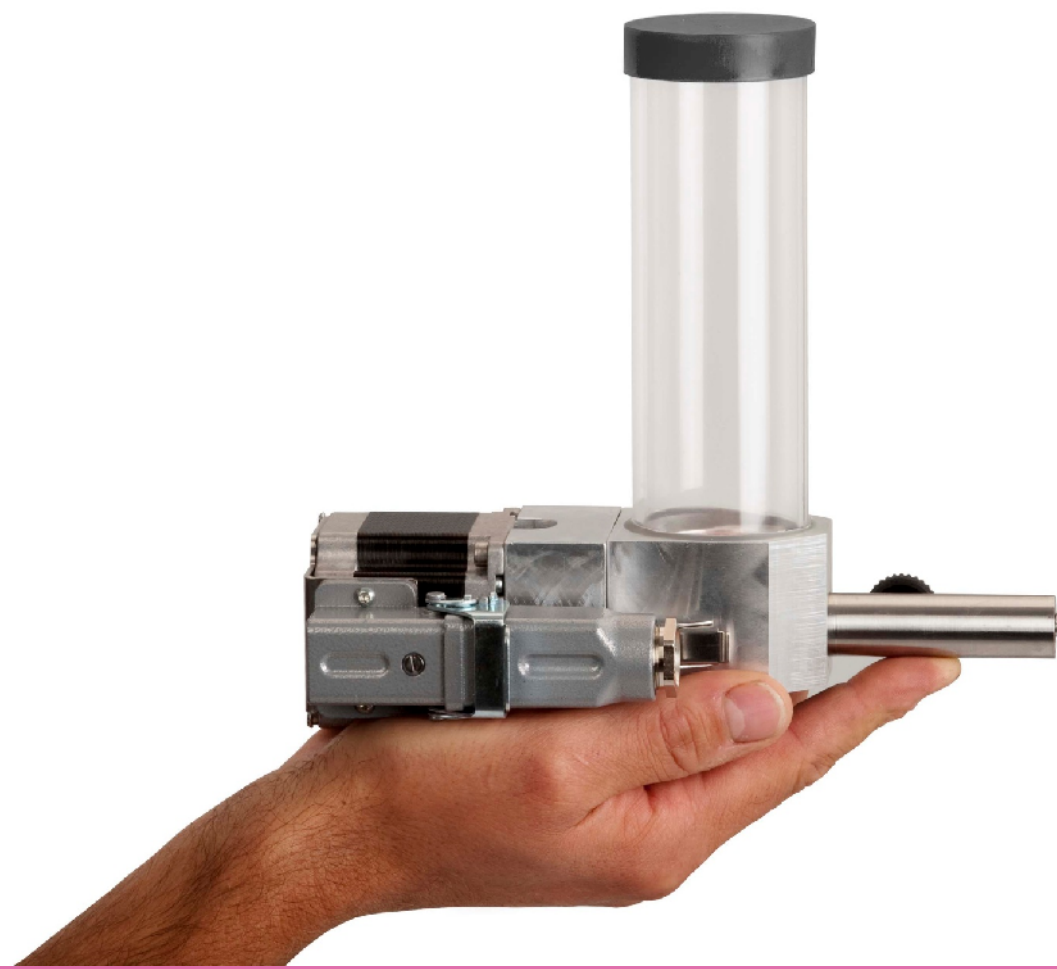

- Dosing cylinder and stepper motor
- Capacity 0.07-72 kg/h
- Manual adjusted speed and time
- Auto synchronization with extruder speed
- Integrated hopper loader control

MCMicro

COLORING THE WORLD

- Ultra compact
- Capacity 0.01-1 g/sec
- Manual adjusted speed and time

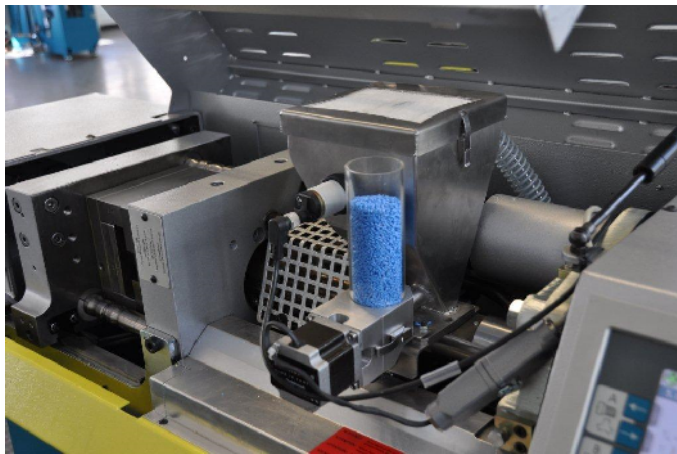

MOVACOLOR

alimatic

MC18 Micro

- Ultra compact
- Capacity 0.01-1 g/sec
- Manual adjusted speed and time
- Integrated hopper loader main material

MC18 Micro double station

COLORING THE WORLD

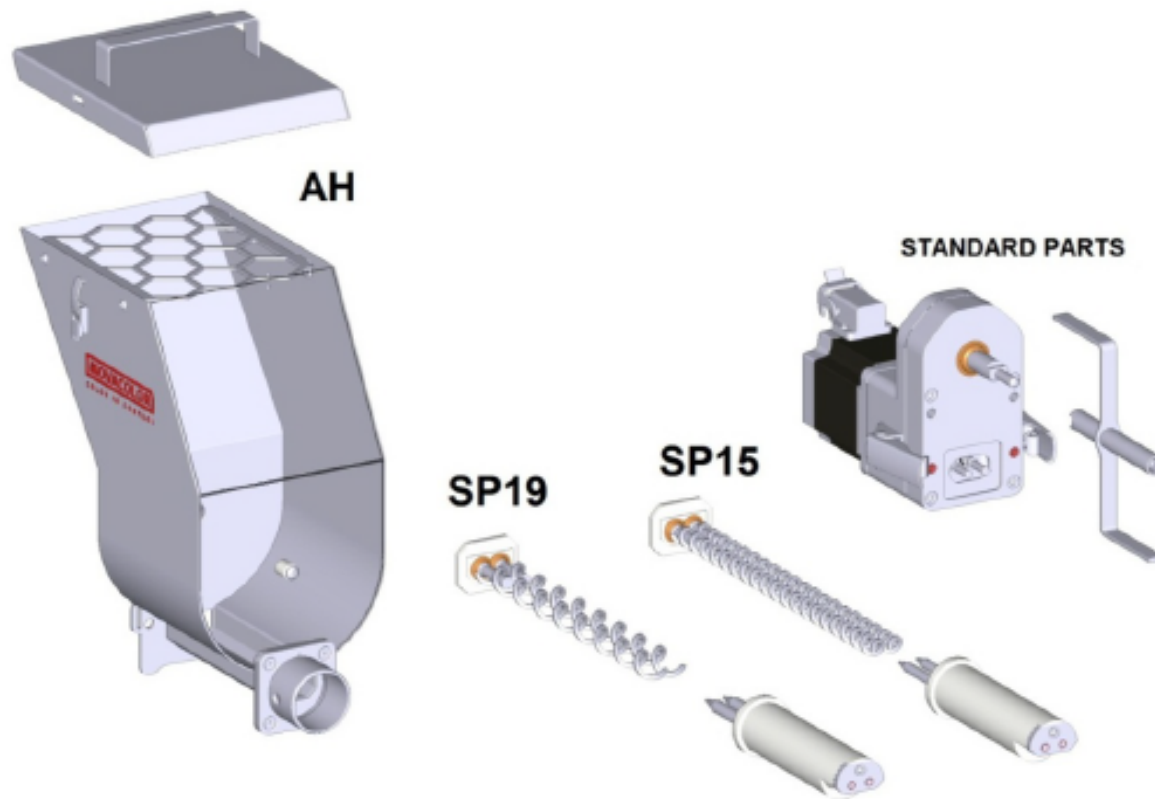

Difficult flowing powder

- Single auger
- Hopper size 15 liter
- Capacity 0.1 -120 kg/h

Non-free-flowing powders

- Double auger/spiral
- Hopper 5 liter
- Capacity 0.1 -40 kg/h

- Double spiral
- Hopper excitation
- High grade polished hopper
- Special powder neck insert
- Capacity 0.1-40 kg/h

MOVACOLOR

MCHigh Output V

- 50 mm auger, stepper motor drive
- Capacity 50-1,000 kg/h
- Manual adjusted speed and time
- Auto synchronization with extruder speed
- Integrated hopper loader control
